**15. OPTIONS FOR PARKING RESTRICTIONS ON BROADWAY**

Area Co-ordinator Adrian Wolstenholme, gave a presentation on the options available for the Broadway residents parking restrictions.

Mr Wolstenholme advised that one option available was to introduce residents only parking permits. He advised that this would incur a set up cost of around £15,000 and would have had to be funded through the Area Forum as it did not meet the essential criteria needed to be completed through the Highways Department's Budget. Also Mr Wolstenholme advised that an annual fee of £30 would be payable to Bolton Council from the residents of Broadway to keep up with ongoing administration costs.

Mr Wolstenholme went on to say that another possible option was to introduce waiting restrictions during a certain time of the day. Mr Wolstenholme gave an example of introducing a waiting restriction between 10:00am and 11:00am and between 2:00pm and 3:00pm. Mr Wolstenholme informed the meeting that this would cost around £5,000 to introduce and would deter people who parked along Broadway all day and advised that the times shown were only to give an example and could be changed to what time of day the residents felt necessary.

However, Mr Wolstenholme did advise that this would also apply to the residents of Broadway and was costly to enforce due to not being on normal patrol beats.

Mr Wolstenholme also informed the meeting that a 24 hour waiting restriction could be introduced at the junctions to protect visibility and assist pedestrians and to introduce this scheme it would cost around £3,000.

Mr Wolstenholme concluded his presentation by advising if the Area Forum wanted to pursue some form of waiting restrictions as outlined above, two courses of action were available:
