1. Introduction and Context –the building blocks

Introduction

Welcome to the Council's Performance Dashboard for Quarter 1 (2020/21). This dashboard is part of our corporate business planning process which includes our corporate plan.

In 2018, our corporate business planning process undertook a refresh, embedding a both a Corporate Plan and Dashboard which would be reported and challenged quarterly. This refresh was in light of an LGA Peer Review who indicated that a regular corporate monitoring performance report should be reinstated to support and inform strong decision making.

Alongside the changes within the Council, our work with our local partners in the Vision Partnership has also undergone change which will help us progress the Bolton 2030 agenda.

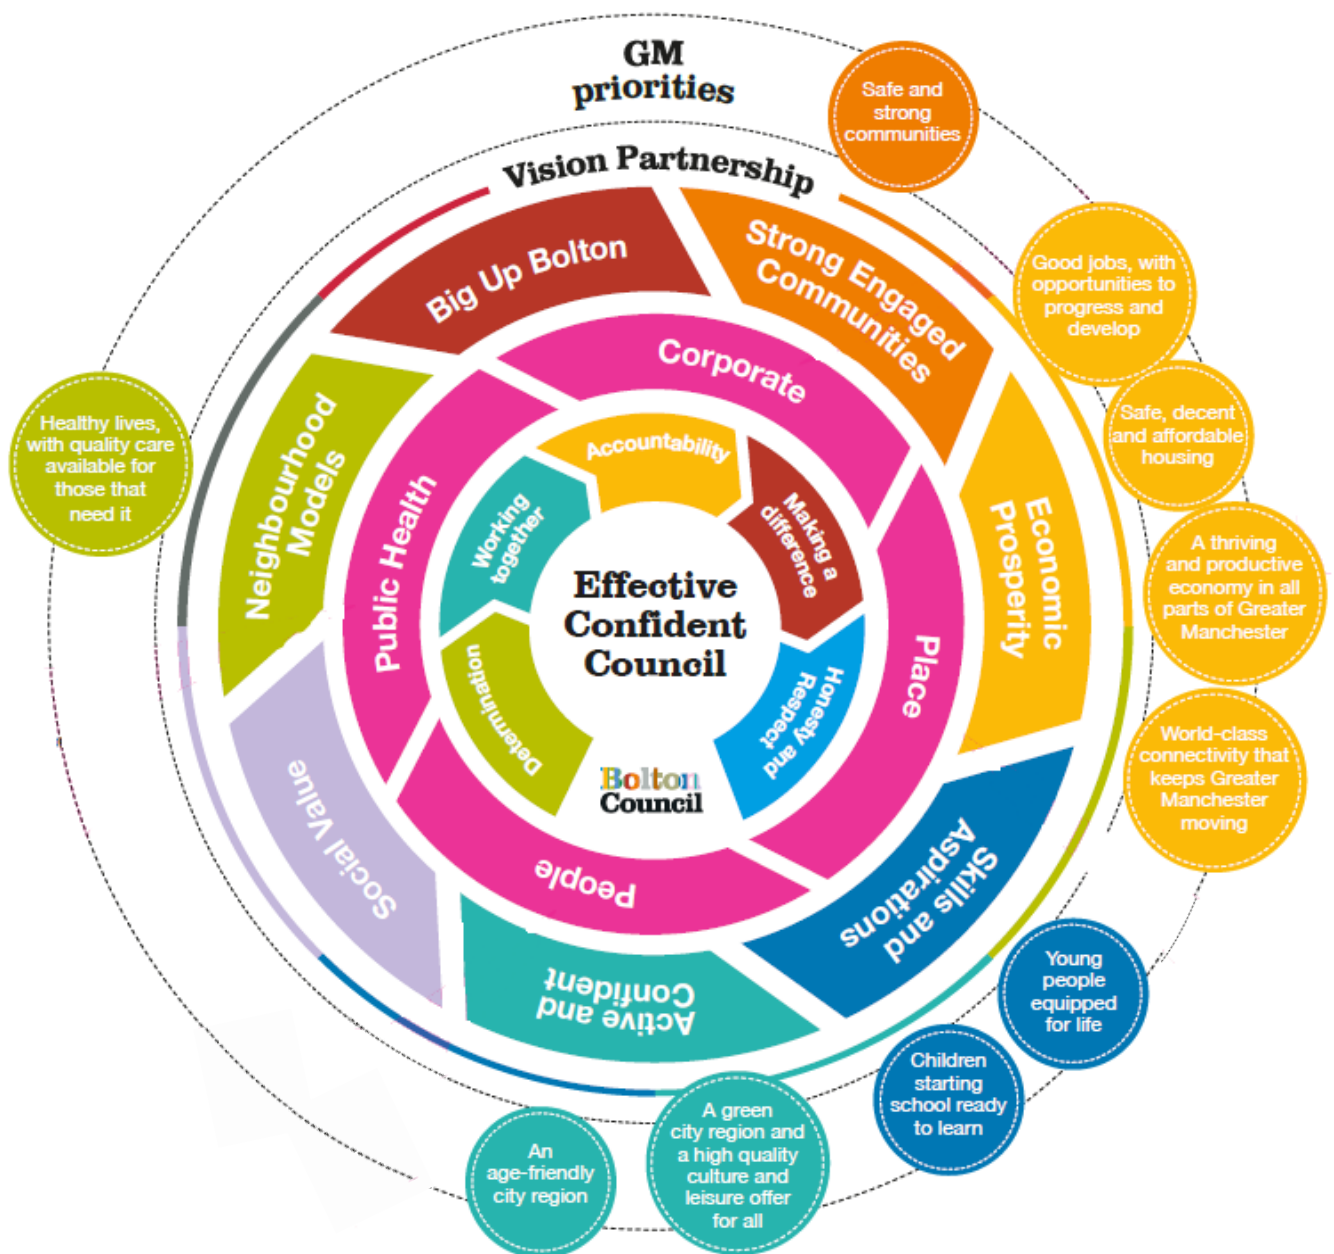

The Bolton Council Performance Framework ensures that the Council's visions and priorities highlighted in Bolton2030 are translated in to clear plans and measurable outcomes to be delivered by the directorates within the organisation.

As the Council's Performance Framework continues to be worked and improved upon, the group responsible for maintaining this document intend to embed new aspects to enhance reporting and allow for more intelligence based decision making.

The performance framework will set out expectations at a Vision level, right through to individual services, ensuring it reports on key performance indicators (KPIs) within each strand as shown below.

Covid-19 has meant that we have seen a change in how we operate and do business and as such, the corporate dashboard reflects this, particularly where services were hibernated. However, as we begin to reactivate our services, the Council is still looking to ensure we work towards achieving our targets set out within the Corporate Dashboard. albeit, this might mean working differently to achieve these.

To signify the Council's response to Covid-19, key pieces of work undertaken within each directorate has been included within the dashboard.

A cross-directorate project group is responsible for the maintenance of this performance management framework, with the aim to create a holistic approach to performance reporting. The team recognise that this is an evolving process to ensure informed decision making. The group has developed a set of KPI's for the four directorates within the organisation which will feed in to the corporate dashboard. This will further evolve into a piece which reflects the Council's requirement with regards to intelligence led decision making processes.

The Corporate Performance Dashboard has been set out to report quarterly and annually on a range of headline and supporting indicators to help us and our stakeholders determine how we are performing as an organisation and whether we are delivering on the council's priorities but also reflective of GMCA priorities.

Developing the dashboard

The Corporate Performance Dashboard is split via the four directorates; Place, People Services, Public Health and Chief Executive's. Within each directorate sits several indicators which have been reviewed and agreed by the directorate's chief officers. Performance against these indicators will best reflect the direction of travel in line with the directorate priorities, Bolton 2030 and Greater Manchester Strategy.

Indicators

- Bolton2030 Vision Outcomes
- Directorate priority
- Link to Greater Manchester strategy priorities where applicable
- Provides meaningful intelligence to inform strategy, decisions and delivery
- Data readily available, for example some KPI's may be reported quarterly whilst others may be reported annually
- Understandable and meaningful
- To enable comparison and benchmarking

The number of indicators for each directorate are as follows:

Chief Executives: 6 indicators	People and Public Health: 12 indicators	Public Health 4 indicators	Place: 9 indicators
Complaints	Delayed Transfers of care attributable to Adult Social Care per 100,000 population	Premature CVD mortality	Employment Rate
Request for Information / Subject Access Requests	Long-term support needs met by admission to residential and nursing care homes	Life Expectancy (Male)	Business Growth Rate / New Business Start Ups
Corporate Income	% YP academic age 16 and 17 NEET	Life Expectancy (Female)	Level 4 Qualifications
Council Tax /Business Rates	Proportion of Section 42 Enquiries where the Risk is either reduced or removed	Physically active adults	Level 2 Qualifications / Adult and Community Learning
Corporate Savings Programme	Good level of development at Early Years Foundation Stage (EYFS)		Net Additional Dwellings / Band D and above Properties
Staff sickness	Rate (per 10,000) subject to a Child Protection Plan		Visitor Economy / Tourism Jobs
	Rate (per 10,000) of Looked After Children		Recycling Rate / Household Waste
	% of all pupils achieving the expected standard in Reading, Writing and Maths at Key Stage 2 (KS2)		Killed & Seriously Injured
	Average Attainment 8 score per pupil		Victim Based Crime

	Average Progress 8 score per pupil		
	Percentage of Primary Schools Good or Better		
	Percentage of Secondary Schools Good or Better		

Baselines

The baselines for each indicator have been worked up differently depending on what the indicator is. For example, some baselines draw in previous years to measure against, whilst others don't have a baseline given the nature of what they are reporting on. For some indicators, the previous quarter will be as an indicator where applicable.

Targets

Targets have been set for the majority of indicators, these targets will be measured against each quarter and will determine the direction of travel and RAG rating for each indicator. The targets have been set based on previous performances as well as expected outturns.

Review

The cross-directorate project team will collate and review the detail to ensure it's in a reasonable state for Scrutiny via CLT, DLT and key stakeholders each quarter.

This will be part of an exercise to ensure an open data medium is put in place for the Council going forward.

Development in GM and the Bolton Vision partnership will be reformed and reflected in this exercise also.

Meanings

To determine how we are performing against our key performance indicators a graphical representation has been used.

The direction of travel determines how the indicator is performing against the baseline set. For example, if the number of complaints we received was seen to be reducing, this would be considered improving and would receive an upwards arrow.

The RAG rating is used to determine whether we are on target or not for improving on the KPI. For example, if the target for residents with level 4 qualifications or higher was 25% and we report we currently have 30% of residents with a level 4 qualification or higher, this would be deemed green as it is above target.

Direction of Travel**RAG Rating**

G	On or above target
A	Below target
R	Off target

Good is...	Explanation / Example
Higher	Explanation - An increase against the measure Example – Life expectancy, for this particular indicator good would be considered a higher life expectancy age
Lower	Explanation - A decrease against the measure Example – Staff sickness, lower staff sickness would be considered good
Achieved	Explanation - The indicator has been reached, this is usually for indicators that are task focused Example – Savings, if we need to make savings within a certain time period, if these savings are made within the timescales then this would be considered achieved

2. Chief Executive's Directorate

The Chief Executive's directorate has been referenced first as it has a unique role of measuring the health of the organisation as well as the performance of the directorate. The Chief Executive's also acts as an enabler for other parts of the organisation.

2.1 Summary of Headline Indicators

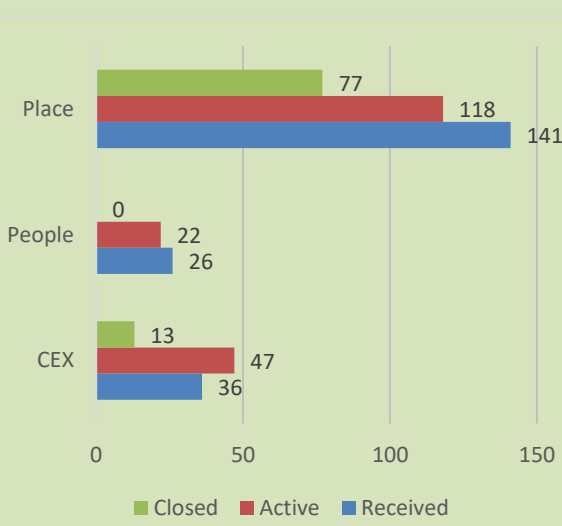

- The data included is for Quarter 1, 2020/21
- For those that are updated quarterly, a RAG rating has been added to the indicator

Headline Indicator	Frequency and Status	Good is...	DOT	RAG
Complaints	Quarterly	Lower	↑	G
FOI's and SAR's	Quarterly	Lower	↑	G
Income / Budget	Annual with quarterly commentary	Higher	↑	G
Council Tax / Business Rates	Annual with quarterly commentary	Higher	↓	A
Savings	Annual with quarterly commentary	Achieved	↑	G
Staff sickness	Quarterly	Lower	↑	G

Chief Executive's response to Covid-19

Below is a list of the some of the key work(s) the Chief Executive's directorate has undertaken in response to Covid-19;

- Ensured the Contact Centre remained open, receiving over 4500 calls to our helpline in the last three months
- Working with partners to deliver over 2300 food parcels to our residents as part of our humanitarian response
- Developed and maintained the Councils website, seeing over 16,000 web hits to the Covid page
- Taken on over 1800 referrals to our HUB service
- Made over 14,000 calls to our shielded residents, ensuring they were given appropriate advice and information
- Ensured Council staff and elected members can work efficiently from home
- Changed how we undertake our committee meetings, moving to a virtual environment
- Developed a Covid-19 resilience pot via Bolton's fund, to support the VCSE
- Taken on over 200 volunteers to support our residents
- Supported local businesses throughout the borough, giving them access to eligible discounts and reliefs
- Developed guidance and materials for our staff and residents in response to Covid-19
- Undertake appropriate risk assessment of Council buildings, ensuring they are set up to reflect government guidance

Vision Outcome: Strong and Distinctive			GM Priority: A thriving and productive economy in all part of Greater Manchester			
Headline Indicator: Stage 1 Complaints			Table 1			
<p>In Quarter 1 2020/21¹</p> <p>There were 181 Total stage 1 complaints received¹</p> <p>a 17 percent decrease (218) since Q3 19/20 (last update) a 33.4 percent decrease (272) since Q4 18/19 (baseline)</p> <p>Table 1 details the complaints via each directorate and those that were received, closed and active in this period</p>	Good is: Lower		G		<p>In Quarter 1, 2020/21¹</p> <p>There were</p> <p>84 Stage 1 complaints were responded to</p> <p>90 Stage 1 complaints closed</p> <p>187 Stage 1 complaints remain active²</p> <p>13.3 average no. of days for a Stage 1 response (20 working days is the legal deadline)</p>

	Target: 272 Stage 1 complaints					
	<p>Link between Vision Outcomes and GM Priorities</p> 					
Supporting Indicator: Stage 2 & Local Government and Social Care Ombudsman complaints						
<p>In Quarter 1 2020/21¹</p> <p>There were 8 Total Stage 2 complaints</p> <p>Compared to (19) from the last update (Q3 19/20)</p> <p>There were 0 Local Government and Social Care Ombudsman open complaints</p>			<p>Commentary</p> <p>During Q1 a different process has been in place for handling and monitoring complaints to ensure that resources are appropriately assigned to frontline activity. In order to manage this and ensure a consistent approach a triage process has been introduced, which will be carried out by officers within Quality Assurance and Improvement Team for Department of People, and the Information Governance Team for all other complaints.</p> <p>New complaints will be assessed on a case by case basis and categorised as:</p> <ul style="list-style-type: none">• Issues / complaints specifically related to Covid-19• General complaints• High risk / urgent matters <p>Compared to previous quarters the number of complaints has seen a significant drop, this is likely due to the hibernation of some services during the pandemic.</p>			
<p>¹ Including complaints from within the People directorate that fell with statutory definition</p> <p>² Active refers to those that remain open, including those that havent been closed in previous quarters</p>						

Vision Outcome: Strong and Distinctive		GM Priority: A thriving and productive economy in all parts of Greater Manchester					
Headline Indicator: FOI requests		<div><p>The table above details the FOI's via each directorate.</p></div>			<p>The time to respond to an FOI is 20 working days unless an extension is requested</p> <p>18.6 working days was the average time for a FOI response within the Q1 20/21¹</p> <p>1 working day was the quickest response time for an FOI</p> <p>28 working days after the legal deadline was the slowest response time to an FOI</p>		
<p>In Quarter 1 2020/21</p> <p>There were 227 FOI requests</p> <p>92.6%¹ FOIs were answered on time</p> <p>136 FOIs had a deadline which meant they should have been answered on time</p>	Good is: Higher						G
	Baseline: Q4 18/19						
	Target: 91% FOIs answered on time						
	<p>Link between Vision Outcomes and GM Priorities</p>						
Supporting Indicator: Subject Access Requests (SAR)							
<p>In Quarter 1, 2020/21²</p> <p>There were 28 SAR requests</p> <p>8 of which had a legal deadline for Q1</p> <p>100% SAR requests were answered on time</p>	Good is: Higher		G	<p>The Information Governance team continue to work with service areas across the Council and the requestor to ensure that our legal responsibilities and performance standards are met.</p> <p>For Freedom of Information requests new appropriate measures have been introduced to support service areas who have been asked for public information during this pandemic. The team has also introduced clear public communications so that the requestor is aware from the start of the processing their request that during this time there may be a delay.</p> <p>The team continue to develop further approaches about how they handle and process Subject Access Requests. This has included more education and awareness sessions regarding redaction and what we need to consider. We are also working with social care to further support complex requests.</p>	<div><p>The table above shows the number of SARs via each directorate</p></div>		
	Baseline: Q2 19/20						
	Target: 69.2% answered on time						
	<p>Link between Vision Outcomes and GM Priorities</p>						
<p>¹ This is only for FOIs answered within this quarter – it may be some of the FOI's are not due and answered in the next quarter</p> <p>² For those that had been answered in Q1 20/21 only, some legal deadlines may move in to the next quarter</p>							

Vision Outcome: Strong and Distinctive

GM Priority: A thriving and productive economy in all parts of Greater Manchester

Headline Indicator: Corporate Income

For 20/21

The projected corporate income is (£'000's):

£232,506

Council Tax: **£115,792**

Business Rates: **£116,714**

a 2.9% increase from 19/20 (£225,914)

Good is: **Higher**

G

Baseline: 20/21

Target: £232,506

Link between Vision Outcomes and GM Priorities

Business Rates

Council Tax

Supporting Indicator: Budget

The Council's Revenue Budget 2020/21 is **£245,396,000 after use of reserves**

The Projected Outturn at Quarter 1 is **£245,396,000¹**

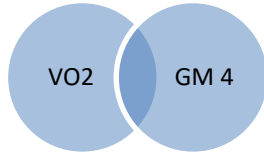

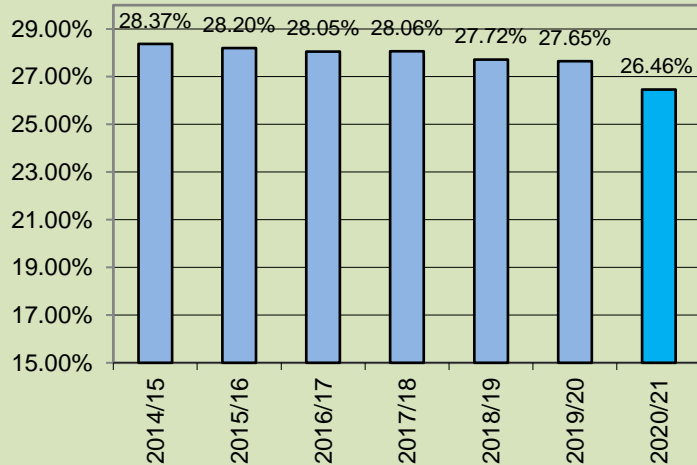

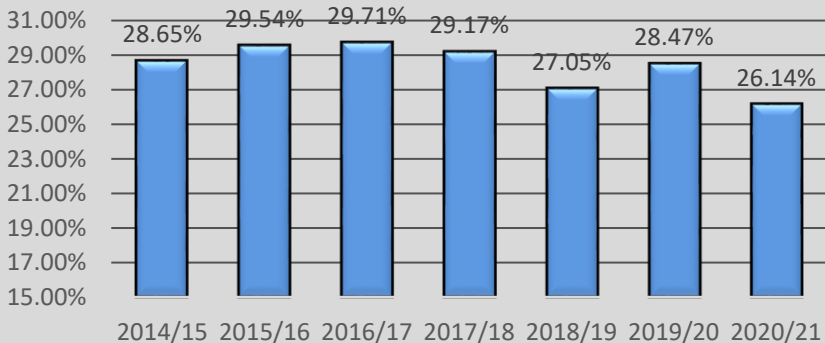

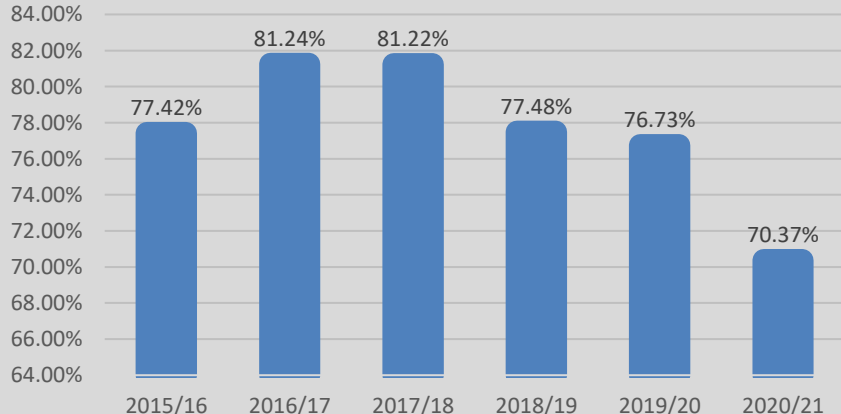

Commentary

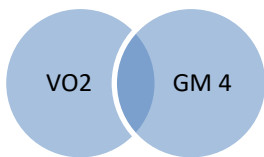

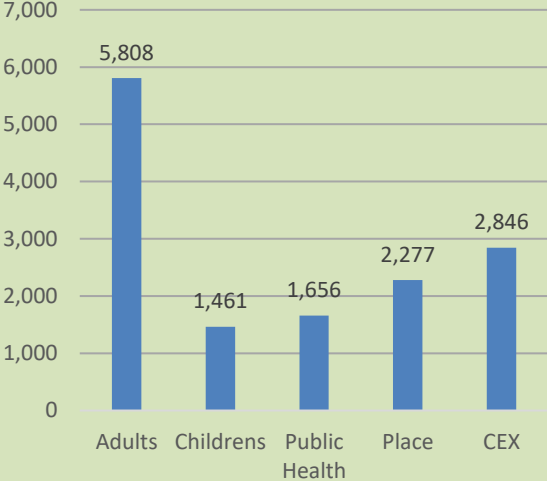

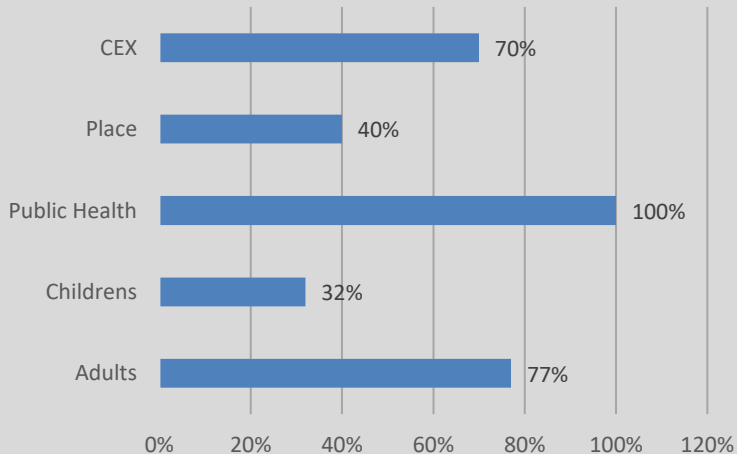

There's an overall increase from 19/20 of £6,592 (2.9%) which is broadly in line with inflation.

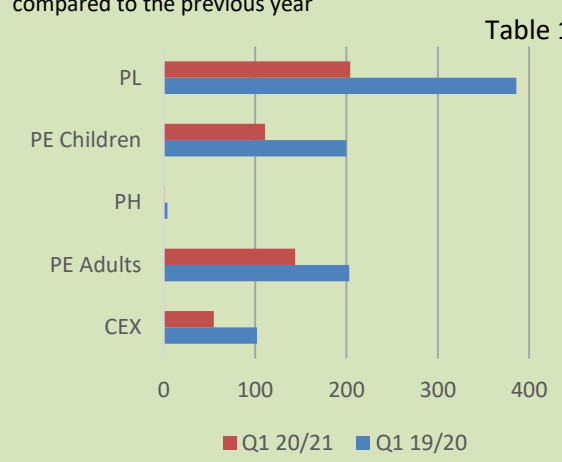

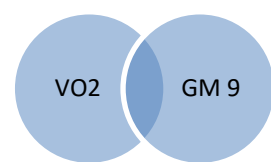

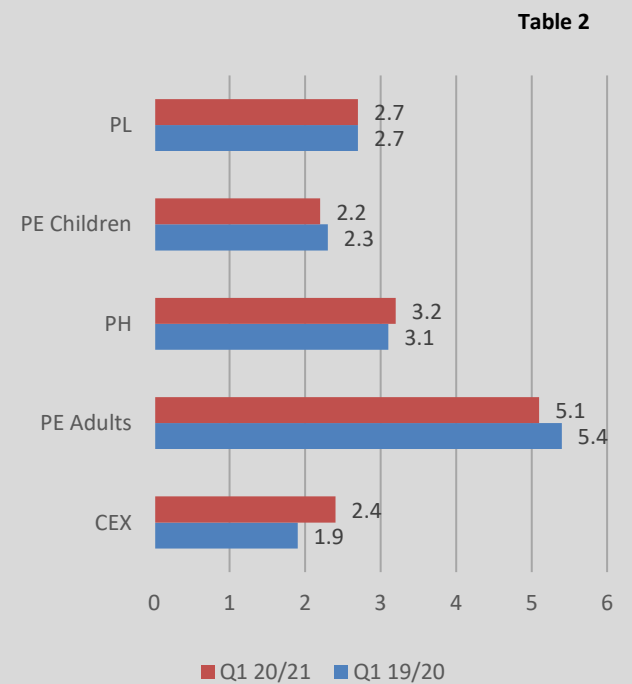

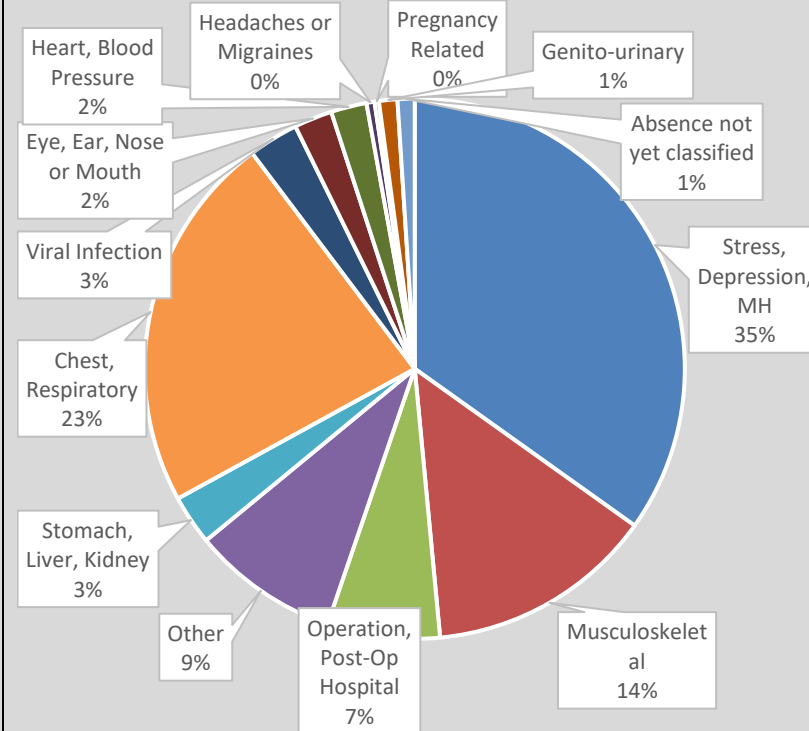

Under the 100% business rates pilot scheme our RSG is £0. Under the pilot we keep 99% of our business rates as opposed to 49% previously, in lieu of this all Greater Manchester authorities have surrendered their RSG grants.

Council Tax - The council tax per dwelling is normally increased from the previous year by a percentage agreed at full council ("the council tax increase"). The new council tax per household is then multiplied by the tax base to give an overall total for the amount of council tax which will be collected.

Business rates – each business property in the borough is assigned a rateable value by the Valuation Office Agency. Central government set each year the rate to be collected from businesses. This rate is multiplied by a business's rateable value to determine the amount collected. Prior to 2017/18 the council passed 50% over to central government who re-distributed it. Since 2017/18 certain councils including Bolton have been allowed to keep all the business rates they collect (except for 1% which goes to the Fire Service) in exchange for additional services such as Public Health. Both RSG and Public Health grant (People) rolled into the 100% Pilot.

Vision Outcome: Strong and Distinctive			GM Priority: A thriving and productive economy in all parts of Greater Manchester		
Headline Indicator: Council tax collection			Table 1		At the end of June, the collection rate is down since the previous quarter. This is influenced massively by the pandemic and we have also put on hold sending reminders and other recovery letters to customers.
For Q1 20/21					
of the £140.82m council tax payable for 19/20 we have collected £370.25m Accounting for 26.46% of total income compared to 27.65% for the same quarter in the previous year Table 1 details the collection for council tax year on year for Q1		Good is: Higher		A	
		Baseline: Q1 19/20			
		Target: 27.65% council tax collection			
		Link between Vision Outcomes and GM Priorities 			
					
Supporting Indicator: Business rates collection			Accounts Receivable Collection at 30 th June 2020		
For Q1 20/21			Compared to last year the busines rates payable has reduced considerably (£91.75m in June 19) due to the additional discounts and reliefs that have been brought in for businesses due to Covid. Equally the collection rate has seen a drop and this is due to the pandemic and the hold we have put on sending reminders and other recovery letters to customers.		
At the end of Q1, we have collected £14.1m (26.14%) of £54.23m business rates payable for 20/21 The table below shows the year on year collection rate percentage for Q1					
					

Vision Outcome: Strong and Distinctive		GM Priority: A thriving and productive economy in all parts of Greater Manchester																							
Headline Indicator: Corporate Savings Programme			Table 1 (£'000)		Supporting Indicator: Remaining savings For 19/21																				
For 19/21 There were £14.048m Savings achieved as of Quarter 1 ¹ Accounting for 60% of total savings to be made (£23,500,000) Table 1 details the total savings achieved for each directorate (19/21) so far.	Good is: Achieved		↑	G	There are £9,524,000 remaining savings to be made for 19-21 <table><tr><th>Directorate</th><th>Still to be delivered (£'000s)</th><th>In consultation (£'000s)</th></tr><tr><td>Adults</td><td>1,750</td><td>0</td></tr><tr><td>Children's</td><td>3,129</td><td>0</td></tr><tr><td>Public Health</td><td>0</td><td>0</td></tr><tr><td>Place</td><td>3,363</td><td>60</td></tr><tr><td>CEX</td><td>1,222</td><td>0</td></tr></table>			Directorate	Still to be delivered (£'000s)	In consultation (£'000s)	Adults	1,750	0	Children's	3,129	0	Public Health	0	0	Place	3,363	60	CEX	1,222	0

CEX	1,222	0																							
Baseline: 19/21																									
Target: £9.524remaining savings																									
Link between Vision Outcomes and GM Priorities 																									
																									
Table 2 shows the percentage of savings made within each directorate for Q1 20/21																									
Table 2 			Commentary The savings programme for 2019/21 amounted to £23.5m. As of the end of June 2020, 60% of the programme has been delivered. The remaining 40% of the programme has been reviewed. Based on the revised analysis 33% of the remaining programme will come forward for approval in each remaining quarter. By the end of quarter 2 both the Directorates of Public Health and Chief Executives will have achieved their savings targets in full.																						

Vision Outcome: Strong and Distinctive			GM Priority: Healthy lives, with good care for those that need it		
Headline Indicator: Staff sickness			Table 1 details the absences via each directorate compared to the previous year		Supporting Indicator: Days lost per FTE
In Quarter 1 2020/21 ¹ There were 515 Staff absences due to sickness a 42 percent increase (895) since Q1 19/20	Good is:	↑			In Quarter 1, 2020/21 ¹ There were 3.12 average working days lost per FTE across the whole Council this was an increase of 1.3% compared to Q1 19/20. 43.1% of Council staff had 100% attendance for 19/20
	Lower				
	Baseline: Q1 19/20				
	Target: 895 (Q1 19/20)				
 Link between Vision Outcomes and GM Priorities					
Table 2 shows average working days lost per FTE Q1 19/20 and Q1 20/21			Table 3 below shows categories of sickness absence for Q1 20/21 (%)		Quarter 1 has seen a significant reduction in overall numbers of staff being absence from the workplace.
					It is important to note that the first quarter of this year coincided with the outbreak of the COVID-19 pandemic and subsequent lockdown, which resulted in significant proportions of the workforce being required to either work from home or remain at home until the services they were employed in returned to normal or the staff concerned were redeployed in to other business critical functions.
Table 2			Table 3		Whilst the overall numbers of staff absent from work showed a significant reduction, the overall average number of working days lost per employee during quarter 1 increased slightly to 3.12 days (from 3.08% Q1 2019/20). This was as a result of the staff who were absent from work, being absent from work long term (classed as any absence in excess of 20 consecutive days) Stress, Depression and Mental Health remains the largest single cause of absence within the workforce, accounting for 33% of all absence during quarter 1, 2020/21 followed by Chest and Respiratory at 23% and Musculo-skeletal at 14%
¹ Whole council figures not including schools					

3. People Services

3.1 Summary of Headline Indicators

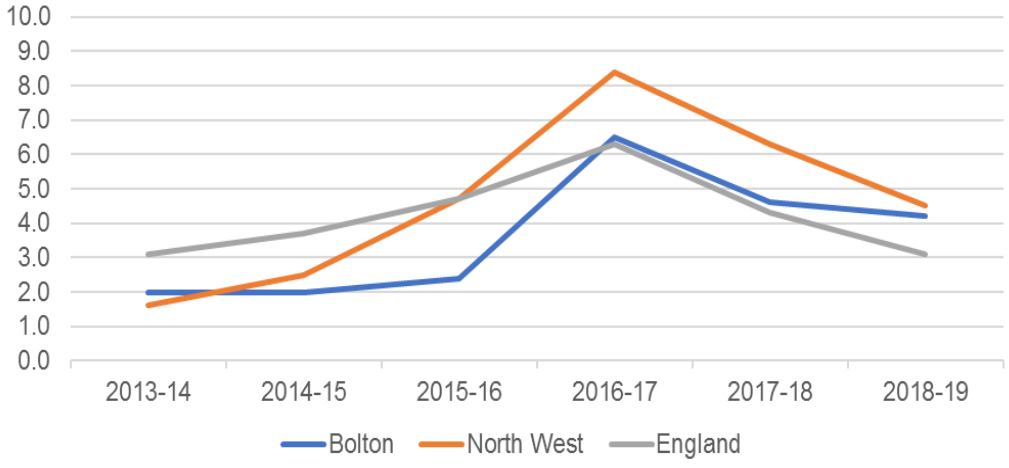

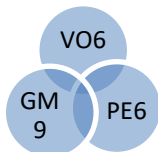

- The data included is for Quarter 1, 2020/21, as not all data is updated quarterly, commentary has been added to each indicator where appropriate.
- For those that have been updated quarterly, a RAG has been added.

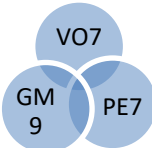

Headline Indicator	Frequency and Status	Good is...	DOT	RAG
Delayed Transfers of care attributable to Adult Social Care per 100,000 population	Annually	Lower	↔	A
Long-term support needs met by admission to residential and nursing care homes	Annually	Lower	↑	G
% YP academic age 16 and 17 NEET	Annually	Lower	↓	R
Proportion of Section 42 Enquiries where the Risk is either reduced or removed	Annually	Higher	↔	Annual – Commentary added
Good level of development at Early Years Foundation Stage (EYFS)	Annually	Higher	↔	Annual – Commentary added
Rate (per 10,000) subject to a Child Protection Plan	Annually	N/A	↓	Annual – Commentary added
Rate (per 10,000) of Looked After Children	Annually	Lower	↔	Annual – Commentary added
% of all pupils achieving the expected standard in Reading, Writing and Maths at Key Stage 2 (KS2)	Annually	Higher	↔	G
Average Attainment 8 score all pupils	Annually	Higher	↔	A
Average Progress 8 score all pupils	Annually	Higher	↓	A
Percentage of Primary Schools/Pupils Good or Better	Annually	Higher	↔	G
Percentage of Secondary Schools Good or Better	Annually	Higher	↔	R

People's response to Covid-19

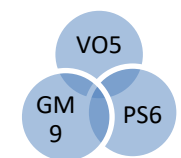

Below is a list of the some of the key work(s) the People directorate has undertaken in response to Covid-19;

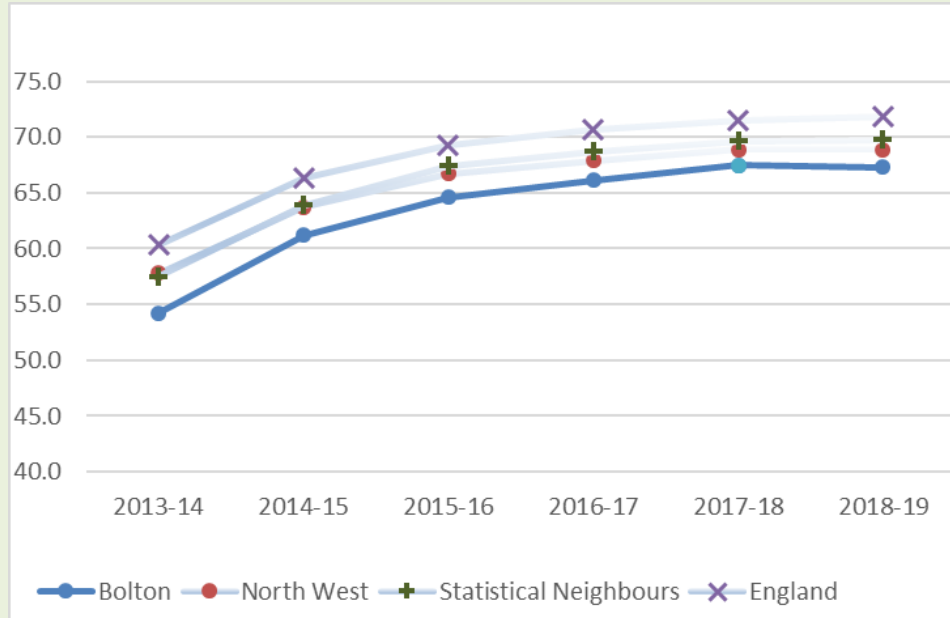

- Enabled schools and early years providers to offer places for keyworker children through the collation of queries, the provision of information/advice, supporting their connection to other council services to share learning / encourage consistency, and offering brokerage support to connect families to provision
- Restructured support for vulnerable families – risk assessed all, and co-ordinated a multiagency approach to supporting, vulnerable families
- Maintained regular contact with all identified vulnerable children in Bolton to monitor their wellbeing
- Worked collaboratively with partners to establish an Emotional Health Pathway for children coming out of lockdown
- Accelerated payments to early education and social care providers to help maintain a level of market stability in the commissioned / funded sector
- Delivered the Government's ICT for disadvantaged and vulnerable young people project – distributing laptops to enable home learning
- Facilitated the redeployment of staff in to the Humanitarian Hub, Care Homes and Testing sites to enable this critical function to be delivered
- Digitalised interactive briefings across partners agencies to ensure common understanding of issues and responses – adult social care / schools / early years
- Advanced estate management plans to establish the Integrated Care Partnership Hub at Castle Hill
- Worked collaboratively with Public Health, CCG & FT to creatively explore how shared data could support the Covid response
- Supported services to draw out learning and think about how this can support future business continuity

Vision Outcome: Ageing Well		GM Priority: Healthy lives with good care available for those that need it		People Priority: People can exercise choice and control and live independently

<p>This indicator measures the average number of delayed transfers of care (for those aged 18 and over) that are attributable to social care, per 100,000 population.</p> <p>A delayed transfer of care occurs when a patient who has been assessed as ready and safe for transfer or discharge from a hospital bed, but they are still occupying such a bed.</p> <p>This indicates the ability of the whole system to ensure appropriate transfer from hospital for all adults. Minimising delayed transfers of care and enabling people to live independently at home is one of the desired outcomes of social care.</p> <p>The latest published annual data of the rate of delayed transfers of care attributable to adult social care (per 100,000 population) was 4.2% in 2018/19.</p> <p>This is a decrease from 4.6% in 2017/18 (a reduction of 0.4%)</p> <p>In comparison, Bolton's current rate is higher than the national average (3.1%) but lower than the north west average (4.5%).</p> <p>Bolton is currently ranked 121 in England (4th Quartile).</p> <p>Good is lower for this measure</p>		Good is: Lower		A																													
		Baseline: 4.6 (2017/18)																															
		Target: 4.0																															
		<p>Link between Vision Outcomes, People Priorities and GM Priorities</p> 																															
<p>Bolton's overall rate has fluctuated over the past two years. Bolton's rate of delayed transfers attributable to social care (ASCOF definition) is just above the national average but below the North West rate. Latest published data for 2018/19 showed further improvements in performance on this measure throughout the country following several years where delays were increasing.</p> <p>This improvement was also achieved on delayed transfers overall and improvement actions are system-wide. The Bolton locality is working collaboratively to help to reduce pressure on the hospital and improve timely discharges to reduce length of stay. The Integrated Discharge Team is a single team with joint management arrangements and working to an agreed list of patients where daily actions are progressed to facilitate timely discharge. The discharge to assess process has been established across the system, with the pathway for people for being discharged home fully implemented.</p>																																	
Notes

Vision Outcome: Ageing Well		GM Priority: Healthy lives, with good care available for those that need it		People Priority: People in Bolton live longer and healthier lives and stay well	
Headline Indicator: Long-term support needs met by admission to residential and nursing care homes					
<p>This indicator measures the number of council-supported older adults (aged 65 and over) whose long-term support needs were met by admission to residential and nursing care homes, per 100,000 population. It is part of the Adult Social Care Outcomes Framework.</p> <p>The latest¹ published performance on this indicator is 791.9 (<i>this equates to 389 older people in permanent residential care at the end of 2018/19</i>).</p> <ul style="list-style-type: none">Bolton’s rate has improved since the previous year and is now closer to the North West averageBolton has a slightly higher rate than regional and national averages and is currently ranked 130 in England (4th Quartile). <p><i>Good is lower for this measure</i></p>	Good is: Lower			G	
	Baseline: 971.1 (2017/18)				
	Target: 763.4				
	 <p>Link between Vision Outcomes, People Priorities and GM Priorities</p>				
	<p>Avoiding permanent placements in residential and nursing care homes is a good measure of delaying dependency, and the inclusion of this measure in the framework supports local health and social care services to work together to reduce avoidable admissions. However, it is acknowledged that for some client groups that admission to residential or nursing care homes can represent an improvement in their situation and admission to residential care may be necessary to meet increased levels of complex care needs.</p> <p>The rate has notably fallen in Bolton for 2018-19 and is now in line with national and comparator averages.</p>

<p>Ensuring that children and young people with the greatest risk of poor outcomes are supported to achieve their potential is a key aim of the Live Well strand of the People’s Plan. Strong partnership arrangements are in place at Post 16 led by the 11-25 Team Manager.</p> <p>A dedicated external adviser is attached to the schools with sixth forms who provides support and challenge via the Bolton Learning Partnership model. Connexions Bolton is a sub-contractor on the Greater Manchester (GM) European Social Fund (ESF) Skills for Growth Programme which provides opportunities to NEET young people. The Local Authority (LA) is a key partner in the Bolton Work Based Learning Network which includes work-based learning providers and Further Education colleges from the town. Strong partnership arrangements are in place with GM Higher to support our National Collaborative Outreach Programme (NCOP) schools with the LA being a key member of the Steering Group. Bolton also has the Team Bolton Partnership which is a work and skills collaboration of public and voluntary sector partners in Bolton led by the LA.</p> <p>The partnership uses a multi-agency approach, working closely with employers. The Partnership uses existing resources including Skills funding where appropriate to provide responsive employment and skills support. The Partnership works closely with employers to support them to grow in Bolton and support the local community including recruiting local people. Our businesses span sizes and sectors and we collaborate with them on apprenticeships, entry level and above roles; upskilling existing staff and many other areas.</p>

Headline Indicator: Proportion of Section 42 Enquiries where the Risk is either reduced or removed					
<p>This indicator measures:</p> <p>The proportion of Section 42 Enquiries where the Risk is either reduced or removed</p> <p>An enquiry is any action that is taken (or instigated) by a local authority in response to indications of abuse or neglect in relation to an adult with care and support needs</p> <p>Bolton’s latest published performance on this indicator is 75%.</p> <p>In 2016/17, Bolton’s performance was:</p> <ul style="list-style-type: none">• 0.2% higher than the national average• 9% above than the North West average• 8% above the England average• Ranked 9th in the North West Region		Good is: Higher			A
		Baseline: N/A			
		Target: N/A GM: 84%			
		<p>Link between Vision Outcomes, People Priorities and GM Priorities</p> 			
		<p>Performance has been consistently above NW averages for some time but the region does not perform as well as other parts of the country. Bolton remains below national averages where “no further action” has been the outcome of the safeguarding enquiry and has a lower percentage (46%) where risk is reduced compared to 2015/16 figures but below the national average.</p> <p>Data has been monitored over some time, and the position is now considered to be stable in the terms of the volume of enquiries. Analysis of safeguarding performance is a priority for Bolton Safeguarding Adults Board, and data is closely monitored. The dedicated Safeguarding team in Adult Social Care at the MASSS (Multi-agency Screening and Safeguarding Service) alongside partners and BSAB subgroups are examining effective practice, recording and outcomes and the experience of service users. Bolton has been working with Liverpool City Council via a Peer Review of Safeguarding Adults, to share good practice and identify areas for development.</p>

Headline Indicator: Good level of development at Early Years Foundation Stage (EYFS)					
Definition of indicator Following an independent review of the EYFS by Dame Clare Tickell, a new Profile was published for implementation for the 2012/13 school year. The new Profile and revised EYFS have a stronger emphasis on the three prime areas which are most essential for children’s healthy development: communication and language; physical; and personal, social and emotional development. The new Profile made changes to the way in which children are assessed at the end of the EYFS and requires practitioners to make a best-fit assessment of whether children are emerging, expected or exceeding against each of the new 17 early learning goals.		Good is: Higher		↔	G
		Baseline: 47.6 at 2013			
		Target: 67% GM: 67.5%			
		Link between Vision Outcomes, People Priorities and GM Priorities 			
Headline information on this indicator Current performance is 67.3%, which is a slight fall from last year. Bolton is currently ranked 135 nationally out of 152.					
		Bolton’s Good Level of Development (GLD) has decreased by 0.2% to 67.3% in the most recent data available. Due to a Government pilot to revise the Foundation Stage Early Years Profile for 2021 one of Bolton’s highest performing schools did not submit GLD data to this set. This accounts for the 0.2% drop in this year’s data which would mean Bolton’s static trend is in line with the GM and regional (68.9%). static rates. There was a marginal increase nationally (71.8% from 71.3%). The 15% attainment gap between children receiving Free School Meals and all children in Bolton is in line with the national figure. The 2019 GLD attainment gap has also narrowed for children with English as an Additional Language with a increase of 1.8% to 60.6% achieving GLD and 22.9 % of children with Special Educational Needs Disability achieved a GLD. The 2019 GLD gap has widened by 1.8% for most disadvantaged including Free School Meals and Looked After Children with 52% achieving a GLD.

		Measures to improve attainment at all stages of a pupil’s school career are at the heart of the Start Well strand of the People’s Plan. The recently reviewed School Improvement Framework will continue to be implemented with a reduced team of School Improvement Professionals alongside an increased number of Associates to provide comprehensive support and challenge for the primary sector. The schedule of regular meetings with Local Authority officers, Headteachers, Governors, Diocesan representatives along with close analysis of information, including data, will continue to provide invaluable consultation and inform strategic decision making to ensure improved outcomes for all pupils. In collaboration with Teaching Schools, support for identified vulnerable schools and academies will be brokered through a team of National Leaders of Education, Local Leaders of Education, Specialist Leaders of Education, accredited moderators and other experienced school leaders.

Vision Outcome: Starting Well		GM Priority: Children starting school ready to learn		People Priority: Our children have skills and aptitude to make their way in the world																								
Headline Indicator: Average Progress 8 score all pupils																												
Definition of indicator Progress 8 aims to capture the progress a pupil makes from the end of Key Stage 2 to the end of Key Stage 4. It compares pupils' achievement – their Attainment 8 score – with the average Attainment 8 score of all pupils nationally who had a similar starting point (or 'prior attainment'), calculated using assessment results from the end of primary school. Progress 8 is a relative measure, therefore the national average Progress 8 score for mainstream schools is very close to zero. When including pupils at special schools the national average is not zero as Progress 8 scores for special schools are calculated using Attainment 8 estimates based on pupils in mainstream schools		Good is Higher			A																							
		Baseline: 2018: -0.12 (All schools) -0.1 (State-funded schools only)																										
		Target: - 0.12																										
		 Link between Vision Outcomes, People Priorities and GM Priorities																										
Headline information on this indicator On the measure of Progress 8 for all schools, Bolton is slightly below national average at -0.2 compared to a national average of 0. This places Bolton in the bottom quartile nationally. This is consistent with the picture when only state-funded schools are considered. Bolton's P8 remains at -.2, while the national average declines to -.03. Bolton remains in the bottom quartile nationally.		Average Progress 8 Score Per Pupil

Headline Indicator: Percentage of Primary Schools/Pupils Good or Better																																																					
Definition of indicator This indicator measures the proportion of publicly funded mainstream Primary Schools in Bolton ranked Good or Better by Ofsted at their most recent full Ofsted inspection. The proportion of pupils in Bolton attending a good or better school is included to provide additional context. As at 30 June 2019, the indicator includes the data of 97 schools - thus each inspection result shifts the headline figure by just over one percentage point. Headline information on this indicator Bolton is ranked 64th in the country at the end of Quarter 1 with 90.7% of primary schools judged to be good or outstanding. On this measure Bolton remains above the England average of 87.8%. On the measure for the proportion of pupils attending a good or outstanding school, Bolton is ranked 53rd in the country and remains above the England average. 91.8% of Bolton primary pupils attend a good or outstanding school compared to 87.8% nationally.		<p>Measures to support improved school attainment for pupils of all ages are at the heart of the Start Well strand of the People’s Plan.</p> <p>The Primary School Improvement Group brings together representatives of Bolton Primary Headteachers across Bolton with School Improvement professionals from the Local Authority, and termly briefings for Primary Heads are facilitated by the local authority. These meetings inform strategic decision making – for example the views of our partners helped to shape the primary Service Level Agreement. Partnership groups provide a context for our improvement offer to individual primary schools. These are delivered through specific pathways of support dependent on whether they are causing concern or have been identified as being vulnerable to being judged Requires Improvement or Inadequate by Ofsted.</p> <p>The Primary School Improvement Team deliver and commission (through Teaching Schools and other partners) bespoke Continued Professional Development to meet the identified needs of schools. The training is well attended and evaluated positively.</p>

4. Public Health

4.1 Summary of Headline Indicators

- The data included is for Quarter 1, 2020/21, as not all data is updated quarterly, commentary has been added to each indicator where appropriate.
- For those that have been updated quarterly, a RAG has been added.

Indicator	Frequency	Good is...	DOT	RAG
Premature CVD mortality	Annually	Lower	↔	Annual – Commentary added
Life Expectancy (Male)	Annually	Higher	↔	Annual – Commentary added
Life Expectancy (Female)	Annually	Higher	↔	Annual – Commentary added
Physically active adults	6 months	Higher	↔	Annual – Commentary added

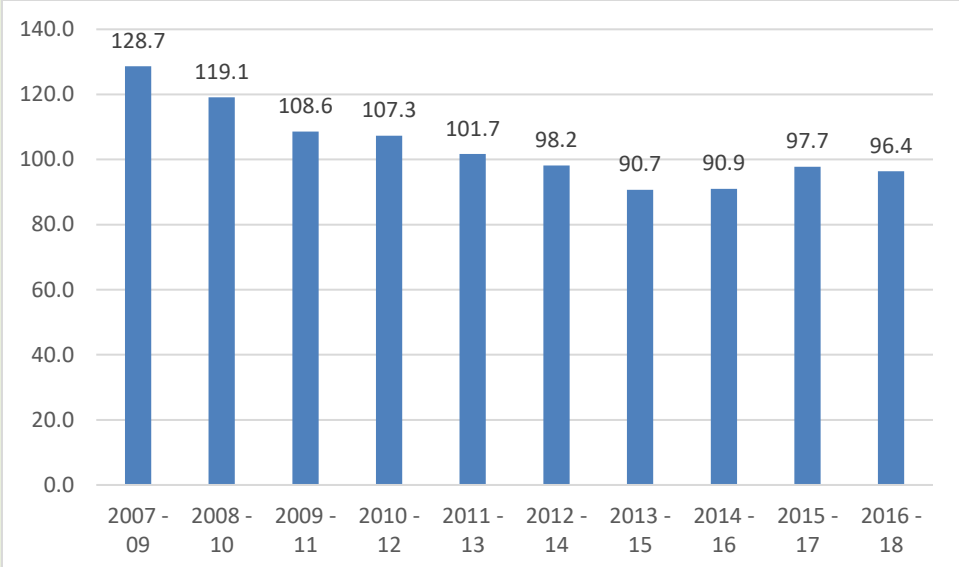

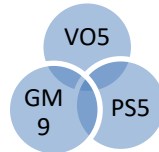

Notes

RAGs not based on targets:

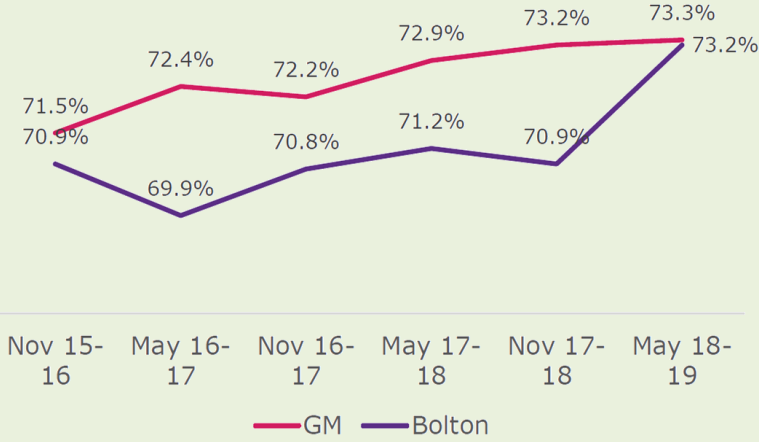

Public Health response to Covid-19

Below is a list of the some of the key work(s) the Public Health directorate has undertaken in response to Covid-19;

- Established Gold; Silver; Bronze governance arrangements and have been aligned to GM CA and GM H&SC Partnership's LRF infrastructure.
- Produced an Outbreak Control Plan, which has been tested via a tabletop exercise and has an implementation plan.
- Established a multi-agency Covid-19 Data and Intelligence Cell, which has prioritised the Covid-19 section of the JSNA.
- Has established a SPOC for contact tracing and set the process in place to enable local, complex contact tracing to take place.
- Has established a responsive local testing model – for symptomatic patients and also for outbreak control. Exploring asymptomatic testing.
- Set up a Response Hub for people who need additional support, i.e. those people who are shielded.
- Has undertaken daily and now weekly communications for all members of the public in relation to covid-10, covering all aspects from guidance, to advice for staff / residents etc.
- Has undertaken a number of webinars for Care Homes to engage them in the processes and all care homes have signed up for whole setting testing and has made a commitment for future webinars as we go into the winter season.
- Has undertaken a number of webinars for education settings to engage them in the planning and advice around covid-19 and has made a commitment for future webinars from August onwards on a weekly basis.
- Has undertaken a number of visits to inspect from both an environmental health perspective as well as Infection prevention and control – i.e. school premises; care homes; eating establishments; barbers; hairdressers etc.

Headline Indicator: Premature CVD mortality				Under 75 mortality rate from all cardiovascular diseases in Bolton	
Definition of indicator Age-standardised rate of mortality from all cardiovascular diseases (including heart disease and stroke) in persons less than 75 years of age per 100,000 population Headline information on this indicator Cardiovascular disease (CVD) is one of the major causes of death in under 75s in England, as an estimated 12.5% of people are living with these conditions across England. There have been huge gains over the past decades in terms of better treatment for CVD and improvements in lifestyle, but to ensure that there continues to be a reduction in the rate of premature mortality from CVD, there needs to be concerted action in both prevention and treatment. CVD mortality has almost halved over recent decades and the gap between Bolton and the England average has narrowed. However, the most recent figure shows that this trajectory has halted slightly. This is of concern because CVD remains the biggest contributor to the gap in life expectancy between Bolton and England and our internal inequality gap. Smoking remains a major cause of CVD and efforts to reduce the number of people smoking will reduce cases of CVD. There is a clear need to maintain the drive to prevent CVD deaths, which still account for one in four of all deaths, and reduce the gap in avoidable deaths and ill health from CVD between the most and least deprived since 40% of amenable CVD deaths occur in the most deprived areas of England.	Good is: Lower		R		
	Baseline: 2015-17: 97.7 2016-18: 96.4				
	Target: NA GM: 95.1				
	<div>Link between Vision Outcomes, People Priorities and GM Priorities</div> 				
<p>The national NHS Health Checks programme plays an important part in identifying CVD risk factors. Local authorities are responsible for funding and arrangements for local delivery of this and the Public Health Department works closely with Bolton CCG to secure delivery via all GP practices in the town. Bolton's NHS Health Check Programme is amongst the best performing areas in the country.</p> <p>There are many other ways of finding the people most at risk alongside wider action to enable healthier behaviours. Whole system effort is required. To this end, Healthy life expectancy is proposed as a cross cutting outcome for Bolton's Vision partnership in order to focus collective action and stimulate a coordinated approach to improving health across the partners.</p> <p>The Public Health team lead strategic work to promote healthy behaviours. This included commissioning universal stop smoking services which are delivered in Bolton via community pharmacies, specialist stop smoking service for pregnant women, smoke free events and public spaces to support people to stay smoke free and are developing a local authority wide approach to promoting healthy weight.</p> <p>Spotlight on smoking and tobacco control Bolton residents can access evidence-based stop smoking service available at most community pharmacies in the borough. The offer of support to stop smoking includes a comprehensive stop smoking in pregnancy service coordinated by Greater Manchester. The smoking in pregnancy service in Bolton continues to be the best performing in England, resulting in the rate of smoking in pregnancy reducing faster than the England average.</p> <p>Whilst helping individuals to change their behaviours is important, creating an environment where not smoking the norm, supports people to stop or not start in the first place. Smokefree public events can raise awareness of the dangers of smoking and Ironman, Ironkids and Sport On The Square in Bolton have all been smokefree. In the coming months work we plan to review the overall model and stop smoking offer, and look more broadly at opportunities for strengthening wider action on tobacco control.</p>

Headline Indicator: Life Expectancy (Male)																																											
Definition of indicator The average number of years a person would expect to live based on contemporary mortality rates. For a particular area and time period, it is an estimate of the average number of years a newborn baby would survive if he or she experienced the age-specific mortality rates for that area and time period throughout his or her life. Figures are calculated from deaths from all causes and mid-year population estimates, based on data aggregated over a three year period. Figures reflect mortality among those living in an area in each time period, rather than what will be experienced throughout life among those born in the area. The figures are not therefore the number of years a baby born in the area could actually expect to live, both because the mortality rates of the area are likely to change in the future and because many of those born in the area will live elsewhere for at least some part of their lives. 2015-17	77.7	78.0	79.6	78.2	77.7																																						
<p>Over the last century, mortality has continued to fall and life expectancy has increased. A statistically significant slowdown in the long-term improvement in age-standardised mortality rates for England and Wales took place around the early 2010s [1]. Areas of high deprivation saw the worst slowing of life expectancy. Bolton's life expectancy at birth for men remains significantly below the England figure, however similar to that of GMs. In the latest release, men have seen a slight decrease in life expectancy, mirroring the trend seen in women's life expectancy.</p>																																											
<p>In the latest release, men have seen their life expectancy remain fairly constant. However, Covid-19 is likely to have an impact on future releases which will be accounted for when new data is published.</p>																																											
<p>There has been considerable public debate about the causes of the slowdown in life expectancy improvements, as well as whether it represents an anomaly in the long-term pattern of improvement or a substantive change in the underlying trend. Researchers have suggested a range of possible explanations for the slowdown.</p>																																											
<p>A whole system effort is required, therefore Healthy life expectancy is proposed as a cross cutting outcome for Bolton's Vision partnership to focus collective action & stimulate a coordinated approach to improving health across partners. The Public Health team lead strategic work to promote healthy behaviours including commissioning universal stop smoking services which are delivered in Bolton via community pharmacies, as well as specialist provision to support pregnant women to stop smoking, smoke free events and public spaces to support people to stay smoke free, and are developing a local authority wide approach to promoting healthy weight. Work is continuing to embed a Healthy Weight Declaration within the Council along with some key partner organisations. Workshops have been held and follow up interviews with council and partner staff to identify & deliver specific actions are taking place. Adhering to the 14 commitments within this declaration will support a whole system approach to improving people's work, domestic and leisure environments, supporting healthier eating and also increasing physical activity.</p>

5. Place Directorate

5.1 Summary of Headline Indicators

- The data included is for Quarter 1, 2020/21

Indicator	Frequency	Good is...	DOT	RAG
Employment Rate	Quarterly	Higher	↓	R
Business Growth Rate / New Business Start Up	Annual	Higher	↑	Annual
Level 4 Qualifications	Annual	Higher	↑	G
Level 2 Qualifications	Annual	Higher	↑	A
Net Additional Dwellings / Band D and above Properties	Annual	Higher	↑	A
Visitor Economy / Tourism Jobs	Annual	Higher	↑	Annual
Recycling Rate / Household Waste	Quarterly	Higher	↑	G
Killed & Seriously Injured	Rolling 12 months	Lower	↔	A ¹
Victim Based Crime	Rolling 12 months	Lower	↑	Annual

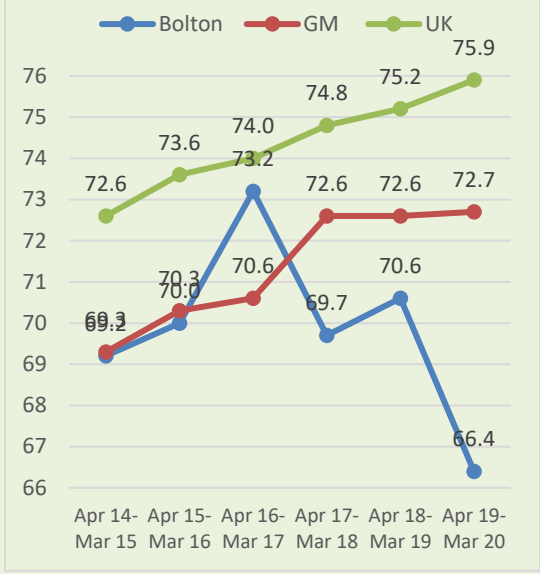

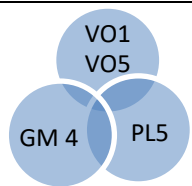

Notes

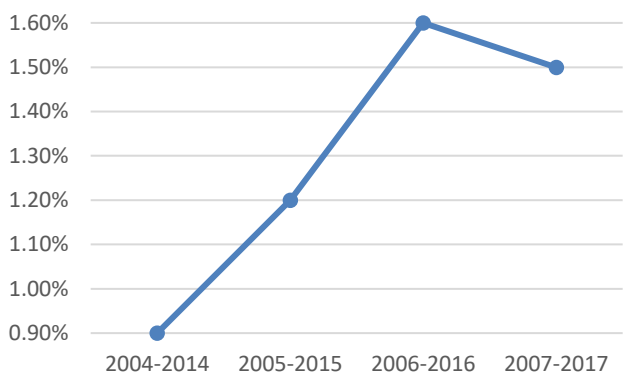

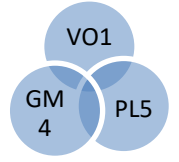

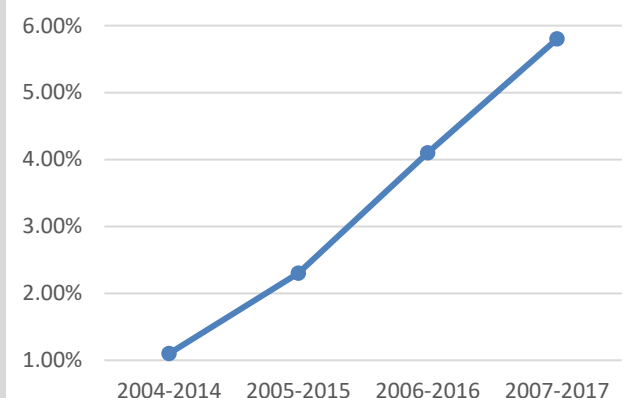

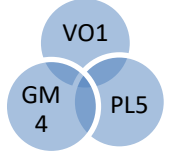

As the majority of the services supporting these KPIs were hibernated within Quarter 1 a commentary has not been provided.

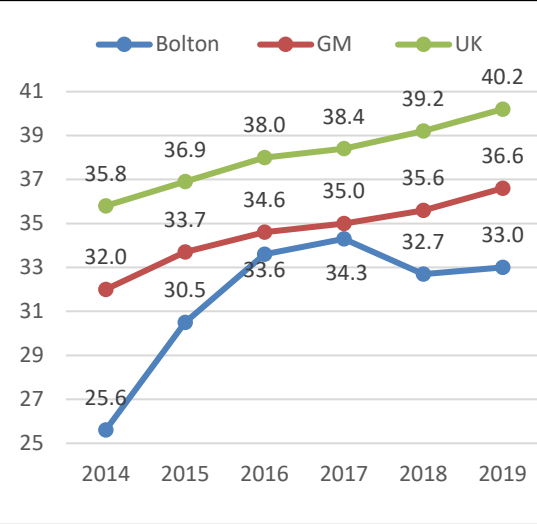

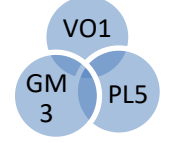

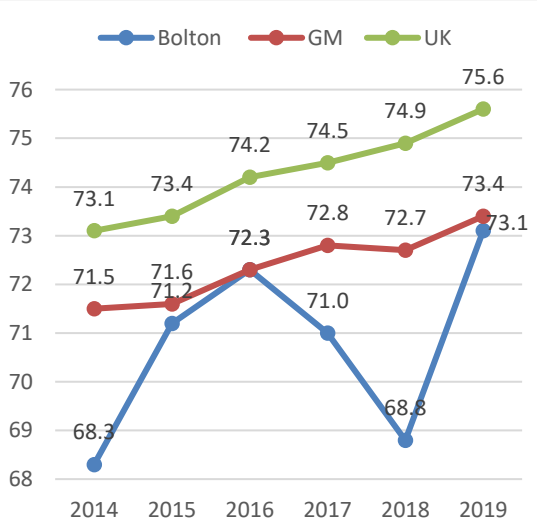

Place's response to Covid-19

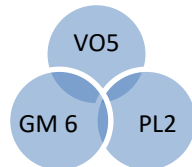

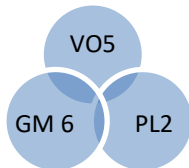

Below is a list of the some of the key work(s) the Place directorate has undertaken in response to Covid-19;

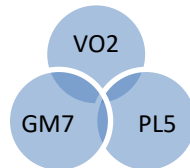

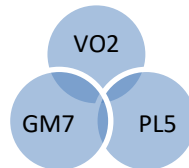

- Enhanced cleaning regimes across council owned buildings & associated schools
- Targeted domestic abuse and anti-social interventions
- Additional appointment slots, including weekends within the crematorium, and cemeteries
- Increased trading standards and business enforcement activity related to Covid-19 non-compliance
- Ensured that the Market remained open to ensure fresh fruit & veg was available to customers
- Continued to provide school meals within schools which remained open for pupils living with key worker
- Continued to deliver community meals to vulnerable clients
- Maintained the Council's Civil Contingencies function and successfully dealt with two incidents / demonstrations (BLM demo & Fire)
- Increased enforcement action around the Health Protection (Coronavirus, Restrictions) Regulations 2020 and closures
- Operated a reduced Social Needs Transport Service, supporting keys worker's children & vulnerable children
- Continued to deliver the on-call Building Control & Dangerous Buildings Service
- Delivered on-line training for residents who require additional support accessing employment opportunities through The Workshop Programme
- Enhanced support to rough sleepers / homeless residents by providing temporary accommodation.
- Operated a full waste collection service, including support from Neighbourhood Services & Highways staff

Commentary								
Work continues to progress on implementing Phase1 of the Housing Delivery Plan. 24 sites in council ownership were submitted for funding for Homes England Local Authority Accelerated Construction Funding. Unfortunately, this was unsuccessful and alternative routes for bringing these sites forward for housing development are being considered including disposal to housing providers for affordable homes and the open market. A planning application is being prepared by Bolton at Home for new extra care scheme in Little Lever. This was also part of Phase 1 works.								
<div>¹Net housing completions’ – total of new houses/apartments added though new build, changes of use or conversion minus losses through demolition of houses, re-development or losses from changes of use.</div> <div>²Target is included in Economic Strategy.
