17. SMART CARDS AND E-MONEY – URGENT ACTION

The Director of Corporate Resources submitted a report which reminded the Executive Member of the urgent action taken in agreeing to appoint sQuid to provide the e-Money facility on the Council's Smartcard.

It was explained that a key service enabler was to offer an e-money application on the Council's smart card which would allow more council services to reduce cash handling which

would allow savings and reduce risk.

Following a review of potential developments / developers within the e-money sector, the Council had been contacted by sQuid who were interested in putting an e-money purse on the Bolton Smart Card which would enable low value transactions, typically under £10, to be made using the card.

There were initial set up costs of up to £40,000 and shared on going costs for the internet portal of up to £17,000 which were the subject of further negotiation. The costs would be off set by the revenue generated from the 5-6% commission sQuid would pay Bolton Smart from the 1.5% transaction charge it would receive from merchants accepting the card for payments.

The Executive Member had agreed that the Director of Corporate Resources, in conjunction with the Director of Legal and Democratic Services be authorised, using the Councils powers under the Local Government Act 2003, to negotiate with and issue a licence to sQuid to enable the loading of an e-money purse onto the Bolton Smart Card.
